GitHub: github.com/mia-chen-dev

Palo Alto, CA

Education

Bachelor of Science in Software Engineering

Stanford University, Stanford, CA

September 2018 – May 2022

Relevant Coursework: Cloud Computing, DevOps Practices

Work Experience

DevOps Intern

Netflix, Los Gatos, CA

June 2021 – August 2021 (3 months)

- Automated CI/CD pipelines using Jenkins and GitLab CI, deploying to Kubernetes clusters.
- Monitored infrastructure with Prometheus and Grafana, alerting on anomalies.

Junior DevOps Engineer

Salesforce, San Francisco, CA

July 2022 – Present (3 years)

- Managed AWS infrastructure (EC2, S3, Lambda), optimizing costs by 20% through auto-scaling.
- Implemented Terraform for IaC, supporting 10+ microservices.
- Collaborated on security audits with Ansible playbooks.

Skills

- Cloud/Infra: AWS (EC2, S3, VPC), Kubernetes, Docker; IaC: Terraform, Ansible.
- CI/CD: Jenkins, GitLab CI, Git.
- Programming: Python, Bash scripting; monitoring: Prometheus, Grafana.
- Soft: Agile/Scrum, cross-team communication.

Languages

- English (Native)

- Mandarin (Fluent)

Certificates

- AWS Certified DevOps Engineer – Professional (2023)
- Certified Kubernetes Administrator (CKA, 2024)
- Google Cloud Professional DevOps Engineer (2025)
